

Like Zirkonflex but with even better properties. Safirflex is more resistant to sunlight as regards strength and colour fastness, and form stability and water repellency have been further improved.

Three large air intakes, each with a fitted mosquito net, are a standard feature. When all walls are raised, the 50 square metre covered area offers protection against the sun or rain. With some of the walls raised, you get shelter from the wind but you still feel close to nature and you can see what is going on outside the tent. In strong winds, all walls are lowered and then the tent can withstand just about anything.

Breathable – Cotpolmex Pro

Extra strong cotton/polyester fabric with efficient ventilating function for improved indoor climate. The dense weave in combination with high-class impregnation gives excellent water repellency. With its high-class properties, attractive appearance and nice feeling, this is, as far as we know, the world's best cotton/polyester outer tent fabric.

Safirflex key features

Like Safir 15 (see separate product data sheet), and also:

- Triangular expansion panels that enable the walls of the tent to be raised
- Zips that hide the triangular expansion panels when they are not being used
- Adjustable aluminium poles that keep the raised walls up
- The possibility of creating a 50 square metre covered area

Safirflex	
Tent model	Safirflex 15 cp
Weight (kg)	26.0*/29.0**/33.5***

Covered area (raised walls)	50 m ²
* See picture A (as an ordinary 15-person tent) ** See picture B (standard delivery) *** See picture C (with everything that is needed for fully open tent)	

Tentipi

- has its roots in Swedish Lapland – the homeland of the Sami kåta
- stands for passion and expertise, especially when it comes to Nordic tipis
- has three decades of experience as the world-leading manufacturer of Nordic tipis
- has several patents and design rights for its original, ingenious design
- cares so deeply about its products that it only makes its Nordic tipis in its own fully-owned factories
- exposes every fifth tent to a full-scale rain test
- views every Nordic tipi as a unique product and gives it a personal ID to make it possible to track its components and specific design
- cares about previous customers by always striving to make new features also fit the older models of tents.

Why people choose Tentipi®

Because they think it is worthwhile investing extra money in order to get a superior product.

Because they believe that Tentipi's sole focus and passion for Nordic tipis give a better functioning and more reliable Nordic tipi.
